The following is an examiner's statement of reasons for allowance:

The claimed invention is novel over the cited references because the references, either alone or in combination, **fail** to teach a CMP system which comprises the claimed specific components and wherein the abrasive is colloidally stable and comprises particles that are electrostatically associated with the positively charged polyelectrolyte (polyelectrolyte having the claimed molecular weight). The closest reference, Ronay (490), uses a polyelectrolyte having a molecular weight outside the claimed range.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any foreign language documents submitted by applicant has been considered to the extent of the short explanation of significance, English abstract or English equivalent, if appropriate.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael A Marcheschi whose telephone number is (571) 272-1374. The examiner can normally be reached on M-F (8:00-5:30) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark L Bell can be reached on (571) 272-1362. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
